MODEL

40 Vacuum Sweeper

For INTERNATIONAL HARVESTER CUB CADET TRACTORS

For Estates • Institutions • Parks • Industry •
Golf Courses • Commercial Users

IMPORTANT: Be sure to specify size of mower when ordering.

- effectively vacuums leaves, clippings, thatch and debris
- assures neat lawns—saves many man-hours of maintenance and clean-up
- easy to attach . . . easy to use . . . safe, quick, efficient
- patented reduction vent reduces bag pressure—increases suction efficiency

This new, approved IHC Cub Cadet Tractor Attachment is an efficient, top quality unit throughout. E-Z Rake Model 40 Vacuum Sweeper unit includes 4 h.p. Kohler engine vacuum power plant; boot adapter; connecting hose; vacuum fan blade and housing. Simple, easy, quick to assemble and attach. Top reduction vent provides maximum vacuum efficiency. Removable end gate permits quick and easy removal of debris. Cart cover and frame fits standard International Harvester Cub Cadet cart. Easy to use—economical to buy.

MODEL 105

Integral engine drive

Lawn and golf course experts agree—

Thatch removal permits better lawn aeration and irrigation; improves fertilizer and seed response; cuts maintenance costs. Thatch removal gives grass room to grow; reduces likelihood of fungus and insects; reduces "dry spots." E-Z Rake makes healthy lawns . . . and healthy lawns smother weeds!

- easy and quick to attach and remove
- ruggedly built
- 100 strong, rubber sleeved, spring tines
- steerable front casters—5" hard rubber wheels
- safety cover for belt and chain drive
- 14 gage steel deck; 1/4" steel end plates
- belt and chain drive direct from tractor drive shaft at approx. 450 rpm (optional integral engine)
- full 37 1/2" raking width
- lifts and lowers from operator's seat

WARRANTY:

The manufacturer warrants each new E-Z Rake product to be free from defective workmanship or materials, for a period of one (1) year from date of purchase. Manufacturer provides no engine warranty; engine is specifically warranted by its manufacturer. Manufacturer's obligation under this warranty is limited to the replacement or repair of parts deemed defective by the manufacturer, at a place to be designated by the manufacturer. Warranty does not obligate manufacturer to bear cost of transportation or labor charges in connection with replacements or repair of defective parts; nor shall it apply to parts upon which unauthorized alterations or repairs have been made. Manufacturer shall not be liable for any damages arising from failure of product or any part to operate properly. No other warranties shall apply.
